

Exclusive Clip: Scripture Won't Make Any Sense Unless You Do This

In this exclusive clip from the upcoming film, *Finger of God 2*, Pastor Chad Norris, from Bridgeway Church in Greenville, South Carolina, explains how the Scriptures won't make much sense unless they are read through the lens of God's love for all people.

Finger of God 2 is using a unique release strategy, particularly in regard to churches around the U.S. who desire to show the film months before its official release date in December. While most films charge a steep licensing fee to be shown publicly, WP Films is providing Tour packages to churches or small groups who sign up to show the film that actually allows the host church to make money at their showing of the movie. This income can be used for missions, youth, or any number of initiatives the host church is pursuing.

To get your package and bring the film to your church this fall, simply visit to find out more.
