Servant

leadership, a contradiction to some, motivated Jesus to wash His disciples'

feet. Myles Munroe, a motivational speaker and business consultant, expounds on

this topic and encourages mentoring in *Passing It On: Growing Your Future*

Leaders.

Challenging

leaders to build on their legacy, he asserts that it is only in appointing a

successor that they will truly succeed. Rather than waiting until retirement

nears, leaders should identify their replacement early, Munroe says, since

doing so is "the first act of a visionary leader."

Offering biblical examples of mentoring, Munroe shows that

Jesus prepared Peter and His disciples for the cross by helping them see that

they were to continue His vision. The greatest test for a leader is the

willingness to love, he asserts, seeing this principle as one that guided each

of the biblical mentors in choosing their successor.

Passing It On is an inspiring call to action for any

who desire to become an effective leader in any vocation, including those in

developing nations.
