Grace and Marzulli discussed how the end times are not thousands of years away but are rapidly approaching. The shifting alliances among nations and the rise of technologies like AI are creating conditions that seem to align with the biblical prophecies of the Antichrist and the false prophet.

AI is already being used in ways that could deceive and manipulate the masses—whether through holograms or AI-generated personas. These technologies are paving the way for a system that could be controlled by the Antichrist in the last days, further confirming that we are living in prophetic times.

While the enemy may attempt to hasten these events prematurely, Grace and Marzulli remind us that God's timing is perfect and unshakable. The enemy may try to get ahead of God's schedule, but ultimately, God will prevail and we can be assured that the victory belongs to Christ and the forces of darkness will ultimately be defeated.

As Grace further uncovers the darkness and the plans of the enemy, she notes how both 2024 and 2025 were years for making monumental decisions. In 2024, the nation faced a “valley of decision,” and in 2025, the church will experience its own defining moment. These years are pivotal in preparing for the challenges ahead, particularly with a potential global crisis in 2028. The coming events in 2028—marked by significant Jewish calendar milestones, including the Shemitah year, blood moons and elections—could be part of a profound shift in world history.
