

Amanda Grace: Explosive Prophecy on UK Grooming Scandal, 'God's Judgment Has Begun!'

In a recent video, Amanda Grace of Ark of Grace Ministries addressed a significant scandal unfolding in England, where "white women and children... have been terrorized and harassed by gangs of Pakistani Muslims." She points out that "the British government deliberately turned a blind eye allegedly to what is happening."

Grace connected these events to a series of prophetic messages she received over the years:

- **February 16, 2023:** "Oh England, do not willfully go with your hands out in willful surrender to be bound by such spirits and wickedness, for your folly shall be your fall in this hour."
- **March 22, 2023:** "The parliament shall fall on itself and a complete overhaul will be needed, as the people in England will become so restless they will flood the streets demanding change."
- **January 16, 2024:** "A measuring rod shall be dropped in America, in Israel, in Iceland, in England... and you shall see a deep separation where the heaviest, the darkest draw comes to the top."
- **May 6, 2024:** "For I am sifting England, says the Lord, and its leaders. I am sifting it and allowing a shaking

not seen in decades to occur to wake up the people.”

- **November 14, 2024:** “Germany and France in this hour, England in this hour, Spain, says the Lord, you shall be eclipsed if you do not submit.”
- **November 7, 2024:** “I, the Lord, have taken the judgment seat concerning UK, Ukraine, Russia, North Korea, Iran, France, England, Switzerland... and these nations have been weighed in this time and their leaders have been found wanting.”

These prophecies, according to Grace, foretell a period of upheaval and divine judgment, aligning with the current scandal.

Elon Musk has been instrumental in pressuring the British government to investigate these allegations. As reported by the Associated Press, following Musk’s criticism, Home Secretary Yvette Cooper announced a “rapid national audit” to assess the scale and nature of gang-based exploitation across the country.

I hope this is a proper investigation

This situation reflects a broader movement where hidden evils are being exposed around the world. In the United States, President Donald Trump and his administration have taken stands against various forms of corruption and crime. Efforts to combat illegal immigration, address crime and dismantling the Deep State have been central to their agenda. Multiple officials, such as Musk, have been vocal about confronting these issues, aiming to rectify long-standing injustices.
