

Biblical End-Times References to ‘Blood Moons,’ ‘Ring of Fire’ Come to Fruition May 26

A new lunar eclipse or “blood moon” is on the way, set to take place on May 26, 2021, and it will be at least partially visible from eastern Asia, Australia, the Pacific Ocean and much of the Americas.

A lunar eclipse is caused by the moon going through Earth’s shadow in space. This particular one is being called a super blood moon or a super flower moon, and it will be the first total eclipse since January 2019. The eclipse will occur as the moon gets closer to the Earth during its orbit.

According to , this “supermoon” full moon will move into Earth’s dark central umbral shadow where it will appear as a “Blood Moon” for 15 minutes, briefly turning the lunar surface a reddish-copper color.

explains a blood moon occurs when the moon moves completely into the deepest part of Earth’s shadow. But the moon turns red instead of going black. The red color comes from some of the sunlight passing through Earth’s atmosphere where it gets bent and colors like blue or green are filtered out, leaving behind longer wavelengths like the color red.

Biblical Implications of Blood Moons

Even though there are scientific explanations for these types of blood moons, some Christians also see prophetic implications behind them. That’s because they’re directly mentioned in Scripture.

A blood moon is foretold by the Bible in the book of Joel 2:31 which states: “The sun will be turned to darkness, and the

moon to blood, before the great and awe-inspiring day of the Lord comes.”

Also in Acts 2:20, “The sun shall be turned into darkness, and the moon into blood, before that great and glorious day of the Lord comes.”

And, in Revelation 6:12, a blood moon also is prophesied: “I watched as He opened the sixth seal. And suddenly there was a great earthquake. The sun became black, like sackcloth made from goat hair, and the moon became like blood.”

All of the Scriptures refer to the moon turning blood red as a heavenly sign the end times are fast approaching.
