Heidi Baker: The Supernatural Things God Can Accomplish When Believers Totally Surrender

The extraordinary and supernatural things God can accomplish through a surrendered vessel are astounding. All He needs is our yes, and as we surrender to His heart and will, He will lead us and empower us to affect this world with the gospel and His kingdom.

Heidi Baker encountered the Lord as a teenager, and this became the springboard for a life of incredible exploits in His name. She has traveled the world, lived among the poor, poured her life out for the lost and has seen the mighty hand of God break into impossible circumstances. Mozambique was the poorest country in the world, war-torn when Heidi and her husband, Rolland, moved there completely by faith and willing to do whatever the Lord asked them to do.

They've witnessed tremendous supernatural miracles of the dead being raised, blind eyes opening, the deaf hearing, the lame walking, food being multiplied and so much more. On the latest episode of *Awaken Podcast*, Michael Lombardo speaks with Heidi about her testimony, what God has done over the years and also the current state of Mozambique and the help they need there.

Starvation in Mexico

For years, I have been warning that Dust Bowl conditions would return to the Southwest. Just check my old books and my old articles. Now it has happened, and everyone is in shock.
