Huckabee to Disney: ‘They Have Certainly Lost Me’

The Walt Disney Company was founded in 1923 by Walt Elias Disney (1901-1966) and his older brother Roy Oliver (1893-1971).

The company established itself through the years as the leader in the American animation industry and found fortune with its family-based, family-focused and family-centered programming. Walt Disney died in 1966 from complications relating to lung cancer.

He would have been thoroughly disgusted by those who have profaned and sullied his legacy and name.

Clinically Dead Woman Leaves Her Body, Catches Glimpse of Heaven and Hell

When Charlotte Holmes went to her doctor for a routine checkup, she got quite a shock. They told her, “Either you’re having another stroke, or you’re about to have a heart attack.”

Her blood pressure had spiked to 234 over 134. Before long, Charlotte was having an out-of-body experience that turned heavenly.

“They called a code and they come running in. I was above my body. I could see them doing chest compressions. I could see them, all the nurses around. I could smell the most beautiful flowers I’ve ever smelled. And then I heard music. And when I

opened my eyes, I knew where I was. I knew I was in heaven.”

In Astonishing Prophetic Film, Jonathan Cahn Reveals Misconceptions Skeptics Harbor About God’s Character

The fact that 2020 was a year of “great shaking” for America was not a surprise to Jonathan Cahn, the Messianic Jewish rabbi and author of many *New York Times* bestsellers, beginning with *The Harbinger*.

In his first book Cahn showed how nine signs of judgment and warning in the last days of ancient Israel are strikingly similar to the events of Sept. 11, 2001. In a sequel, *The Harbinger II: The Return*, he demonstrated that the uncanny pattern had continued.

One of nine “harbingers” was that a nation’s attempt to undo judgment apart from returning to God would be followed by “greater shakings.” That happened to Israel 19 years after it was attacked by the Assyrians in 605 B.C. And, remarkably, 19 years after 9/11 came the “greater shaking” of the COVID-19 pandemic. {eo}
