

During Heartfelt Prayer, Pastor Praises Planned Parenthood's Murderous Agenda

A Chicago-area pastor praised the atrocities of Planned Parenthood during her invocation at a centennial celebration.

"We celebrate today that on Oct. 16, 1916, Margaret Sanger opened the doors of the first Planned Parenthood clinic right here in New York City. And with this act of courage and resistance, the doors were opened for women to overcome the silence and the shame and the stigma inflicted on our sexuality," United Church of Christ's Neichelle Guidry Jones prayed. "The doors were opened for women to rise up against the political, religious and patriarchal machines that sought to undermine our right to choose and decide what happens to our own perfect, beautiful and holy flesh."

The pastor continued: "We can't do this alone. We might be many, but with You we have been mighty. So come into our gathering with Your presence and Your insight and Your peace and Your power," Guidry Jones declared. "Come with Your unity that we might be ready when You call. Call on us to stand, call us on us to press and fight, to speak to move and to march on into the next 100 years of Planned Parenthood."

Meanwhile, many Christians believe abortion to be the biggest issue of the upcoming election.

Prophetic voice Rick Joyner called the institution the gate of hell in America.
