

Joel Rosenberg Connects the Dots: End Times Turmoil and Biblical Prophecies

Could President Trump's latest proposal for Gaza be setting the stage for ancient biblical prophecy to unfold? That's the question best-selling author and Middle East analyst Joel Rosenberg is asking after Trump made waves with his bold vision for the war-torn region.

At a recent event, Trump declared, "I do see a long-term ownership position, and I see it bringing great stability to that part of the Middle East and maybe the entire Middle East." He went even further, saying, "The United States is going to own Gaza and rebuild it and make it beautiful."

The idea is stunning—both in its ambition and in the shockwaves it sent through the political and diplomatic world. Israeli Prime Minister Benjamin Netanyahu never asked for such a plan, and even members of Trump's team were reportedly caught off guard. But Rosenberg sees something even bigger at play—something with prophetic significance.
