

Middle East Prophecies From Henry Gruver and John Paul Jackson Are Coming To Pass Right In Front Of Our Eyes

Most people don't realize this, but we just witnessed one of the most pivotal moments in human history.

IDF forces have entered Gaza and Israeli Prime Minister Benjamin Netanyahu is calling this a "second war of independence." The battle against Hamas will be long and bloody, and Netanyahu is absolutely determined to wipe the terrorists out. But this conflict will not just be limited to Israel and Hamas.

In a previous article, I discussed the fact that while he was still alive Henry Gruver was shown that "when Israel sends troops into Gaza, it will be a sign the Middle East War has started." I believe that prophecy has now been fulfilled. And please note that he did not say that "a Middle East war" would start once IDF forces entered Gaza. Rather, he used the phrase "the Middle East War," which implies that this is going to be a big one.

When he publicly announced this "second stage of the war," Netanyahu definitely sounded like a man that understood the gravity of the pronouncement that he was making...

"Last night, additional ground forces entered Gaza, marking the beginning of the second stage of the war, whose goal is to destroy the military and political capabilities of Hamas and to bring our kidnapped citizens back," Prime Minister Benjamin Netanyahu said in an evening briefing.

"We are only at the beginning of the road. The war will be

tough and long,” the prime minister said. But he stressed, “We are prepared for it. This is our second War of Independence. This is our mission, our purpose in life, and together we will prevail.”

This is it.

And he knows it.

It is being reported that Israel’s “best soldiers” are now on the ground inside Gaza fighting Hamas...

“Israel said its best soldiers were fighting Hamas inside the Gaza Strip on Saturday night, as Benjamin Netanyahu declared that the ‘second stage’ of a long war against the terror group had begun.

“Israel’s forces fought fierce street battles against Hamas in northern Gaza using tanks and infantry, with Lt Gen Herzi Halevi, the chief of the general staff of the Israel Defense Forces, saying his troops had killed ‘hundreds’ of terrorists.”

Hundreds of Hamas fighters may have been killed so far, but there are thousands more hiding in the tunnels underneath Gaza.

And they can pop up and ambush the Israelis at any moment like they did on Sunday afternoon...

“Hamas fighters stormed out of a tunnel complex in northern Gaza attempting to ambush Israeli soldiers operating in the area, according to new reports.

"Sunday afternoon, Palestinian fighters reportedly came out of a tunnel in Gaza a few hundred meters from the border with Israel near the Erez Crossing, Army Radio reported in Israel.

"The report stated that a number of the gunmen were killed in the clashes while mortars were fired setting off sirens in Netiv Ha'asara."

Unfortunately, this war is not going to be limited to just Israel and Hamas.

More parties will join the conflict, and there is going to be so much death and destruction.

Eventually, the Iranians will get directly involved, and at that point things will get really crazy.

In "Lost Prophecies Of The Future Of America," I shared a prophecy from John Paul Jackson about Israel fighting Iran...

"The day is going to come when Israel will hit Iran. They already have were mystery explosions that happened. And the Lord told me about this: Israel will one day send rockets into Iran, but before that day happens, there will be other explosions called mystery explosions. And those have happened. But one day it is going to happen and when that takes place and those missiles hit Iran, there's going to be a huge growth of anti-Semitism and everybody's going to blame Israel on the price of gasoline."

Of course missiles are not flying back and forth between Israel and Iran yet.

But we are already witnessing the "huge growth of anti-Semitism" that he talked about in this prophecy and many other prophecies.

If you can believe it, it is being reported that central London has now become “a no-go zone for Jews”...

“According to the Daily Mail, the Metropolitan Police have been accused of allowing central London to become a no-go zone for Jews. Since the genocidal attack on Israel, thousands of people marched in support of Palestine, with some seen carrying effigies of dead babies, chanting ‘Globalize the Intifada.’

“Yesterday was the third consecutive week that the capital has been consumed by these Middle East protests with some shocking incidents.

“Police only made nine arrests, and a number were linked to hate crimes. One of the women marching through London Sunday held an effigy of a dead baby and shouted, ‘Slaughter the Jews.’”

That is truly frightening.

We are seeing similar protests erupt in major cities all over the globe.

On Saturday, thousands of pro-Hamas protesters actually shut down the Brooklyn Bridge in New York City...

“At least 7,000 pro-Palestinian protesters shut down the Brooklyn Bridge during a march through the borough Saturday, openly cheering Hamas terrorists’ barbaric attacks on Israel—and justifying the murders of innocent mothers and babies.

“‘Freedom by any means, land back by any means,’ declared Dorian, a 24-year-old protester from Queens, during the three-mile Flood Brooklyn for Gaza march, which began at 3 p.m. in front of the Brooklyn Museum in Crown Heights, not far from the Hasidic Lubavitcher headquarters on Eastern Parkway, where a Sabbath festival was being held.

"I believe the settler state of Israel must be taken down," he said.

These protesters are not just calling for the war to end.

They literally want Israel to be destroyed.

Personally, I have never seen more of this kind of hate than we are witnessing right now.

Overall, October is on pace to set a new all-time monthly record in the United States...

"Since the Hamas attack, [Secure Community Network (SCN)] has logged 94 incident reports on college campuses, 15% of the 614 incidents it has logged across the country this month. October 2023 is on track to register more anti-Semitic incidents than any month ever recorded since the group's founding in 2004.

"Some of these incidents have received significant attention, such as the events at the Cooper Union in New York City last week, when a protest claiming support for Palestine surrounded the school library and pounded on its glass windows, chanting, while a small group of Jewish students watched from inside."

Our world is becoming a very dark place.

And war is here.

Of course what we have seen over the past few weeks is just the beginning.

A tremendous amount of chaos is ahead, and most people are completely and utterly unprepared for what is about to happen.{eoa}
