

Miracle Amidst Chaos: Charismatic Kenosha Church Spared From Fire, Destruction

The rioting, looting and vandalism following the death of George Floyd in Minneapolis, Minnesota, carry a hefty price tag.

According to Axios, insurance companies will pay anywhere from \$1 to \$2 billion in insurance claims, the most in U.S. history.

The protests took place in 140 cities this spring and summer, and although many people were simply there to make their voices heard, others carried out arson, vandalism and looting that destroyed businesses and even some churches.

CBN News heard of a miracle story about a church in Kenosha, Wisconsin, that took place in the middle of the destruction and chaos.

Kingdom Word Global Impact Ministries is on a street with many other businesses.

The entire block of buildings was burned down and the only thing that was left standing was the church.

"Several men were with me, and we actually stood outside of the building while there was protesting, and then it turned into rioting, and you would have never thought that they would touch a church. We had a rock go through one of our windows and we were yelling, 'Hey, this is a church,'" Pastor David Montgomery explained.

Pastor David and his wife, Verne't, told our CBN News program *The Prayer Link* a 12-inch firewall kept their church from burning to the ground.
