

Morning Rundown: Another Church Implements an 'AI Jesus'

Here's a quick rundown of the top stories on :

Another Church Implements an 'AI Jesus'

A church in the Swiss city of Lucerne has installed an artificial intelligence-powered Jesus.

"It was really an experiment," said Marco Schmid of the Peterskapelle church. "We wanted to see and understand how people react to an AI Jesus. What would they talk with him about? Would there be interest in talking to him? We're probably pioneers in this."

Schmid further stated, as per The Guardian, "We had a discussion about what kind of avatar it would be – a theologian, a person or a saint? But then we realised the best figure would be Jesus himself."

Why the Church Must Remain Vigilant in This Post-Election Hour

Trump's victory is a bigger miracle than we realize. Consider the colossal tsunami of propaganda that voters had to endure. Harris burned through \$1.6 billion to manipulate Americans. That does not even include billions in free advertising. Over 90% of the media was a direct mouthpiece for the Harris-Walz campaign. And that was after the years-long multiple legal wars they declared on Trump.

As Casey Chalk said,

He endured criminal cases galore: a federal election interference case, a Georgia election interference case, a classified documents case, and a hush-money case. His political opponents labeled him a fascist, a rapist, a misogynist, a racist and an “extinction-level threat to democracy.” There is no man more viscerally hated in the United States than Donald J. Trump. In spite of it all, he persuaded enough voters to be elected the 47th president.

How Socialism Almost Destroyed the Pilgrims

Before the Soviet Union, China, Cuba and Venezuela, socialism was tried right here on American soil and utterly failed. The Pilgrims, who established the first permanent English settlement in New England in the fall of 1620, at first attempted a socialist style of living. They disbanded it, however, when it became obvious that their community could not survive with such a system.

Socialism Was Forced on Them

The Pilgrim's journey to America was funded by a group of venture capitalists who provided the ship and supplies for their journey to the New World. In return, the Pilgrims agreed to live communally until the debt, including interest, was paid. Everyone would receive the same recompense for their work, and everything above their basic necessities would go into a common fund to be used to pay their creditors.
