Chris Reed on Rick Joyner Fallout: 'They Wanted to Bury Me'

Chris Reed is speaking out following Rick Joyner's message to MorningStar Ministries regarding Chris' resignation from the ministry.

After Chris Reed's departure from Morningstar, Joyner expressed frustration with Reed's absence from the ministry.

"I did not feel that there was a shepherd's heart revealed," Joyner said. "A shepherd lays down their life for the sheep and certainly has regard for them. I didn't quite feel like there was regard for me, for our board, any of this stuff that we had entrusted a lot to him. And I don't think to just quit like that is what we ever need to do with anyone, with no notice."

The 'Ring of Fire' Rosh Hashanah Eclipse Is Coming Soon

Why do solar eclipses keep falling on such noteworthy dates? In 2024, there will be a total of just two solar eclipses. The first happened on April 8th, 2024. That was known as the "Great American Eclipse of 2024," and it occurred just after the sun had gone down in Israel and the first day of the first month on the Hebrew calendar had begun. The second solar eclipse of 2024 will take place on Oct. 2nd. When it occurs, the sun will have just gone down in Israel and the festival of Rosh Hashanah will have just started.

I realize that this is a lot to process, and so let it sink in for a moment.

Is it just a coincidence that the first solar eclipse of 2024 just happened to fall on the very first day of the very first month on the Hebrew calendar, and the second solar eclipse of 2024 just happens to fall on the day that is celebrated as "the Jewish New Year"?
