

Morning Rundown: Multitudes of Libraries Deny Kirk Cameron's Faith-Based Story Hour Request

Here's a quick summary of the top stories on :

Multitudes of Libraries Deny Kirk Cameron's Faith-Based Story Hour Request

In what some may label as clear discrimination, actor-writer-producer Kirk Cameron has been rejected by scores of public libraries for a story hour in an attempt to reach multitudes of American children with his new book "As You Grow," a book that celebrates family, faith and biblical wisdom.

Fox News has reported that Cameron's publisher, Brave Books, has reached out to more than 50 public libraries throughout the country to schedule a story hour that will allow children to learn about the above-stated values, but that not one of the libraries has answered with a "yes."

Ironically, Fox News reports, many of the same libraries that have denied Cameron a slot to teach from his book are "actively offering 'drag queen' story hours or similar programs for kids and young people," according to Cameron's book publisher and a review of the libraries' websites and current program listings.

Christian Group's Reservations Revoked Over Conservative Values

When critics claim that Christians in America today do not suffer persecution or oppression, they are actively denying the reality of living in modern-day America.

This is not a new occurrence, either. The aggressive left has been attacking one Christian baker since 2012. That is over a decade of legal and court battles all because Jack Phillips stands firm in his Christian faith.

But the left has shown one thing, that in the name of tolerance they are in fact spreading intolerance.

Prophetic Words: End of Year Prophecies to Guide You into 2023

Chris Reed's Prophetic Word Over China:

Unprecedented mass protests are unfolding right now across China. The country is seeing the largest pushback in decades, following their "zero COVID strategy" still in place today. China's Communist Party has continued to enforce lockdowns, testing and travel restrictions—but now people are rising up and fighting back.

Alexander Pagani's Prophetic Word on Reformation and Restoration:

Do you feel called to speak truth and bring reform to the current church model? We are approaching 2023 and apostle Alexander Pagani says he believes that next year God will be raising up the Jehu's to confront systems that have been oppressing God's people. This type of person will be not be a revolutionary, but a reformer. {eoa}
