Rise of Barron Trump: Has the Prophetic Moment of Revival Arrived?

In a world increasingly dominated by judgment, cancel culture and division, one young man's quiet yet profound moment in a university classroom has captured the hearts and minds of millions.

In a viral video that has garnered over 1.2 million views, Barron Trump, the youngest son of President Donald Trump, did something remarkable. While sitting in class, he listened as a professor launched into a sharp critique of his mother, Melania Trump. But instead of reacting with anger or engaging in a heated debate, Barron simply and powerfully responded with wisdom beyond his years.

"You talk about my mother as if she's just an image, a caricature of what society wants her to be," Barron said, his voice calm but firm. "But have you ever stopped to consider the humanity behind the headlines?"

(I'm still getting the hang of the lingo. Some say pastor, preacher, or minister, depending on the church—but I know Diane as a deeply faithful soul who helped guide me closer to Jesus. For that, I am forever grateful.)

What No One Told You About the Tribulation—Until Now

Many today mistakenly associate global crises—such as lockdowns and vaccines—with the Tribulation. However, according to biblical prophecy, the actual Tribulation will be an unprecedented period of divine judgment upon the earth.

In a recent video by Amir Tsarfati, he discusses what biblical prophecy actually has to say about the Tribulation period, and how it differs completely from what most of us believe.

As the world moves closer to the fulfillment of these prophecies, it is crucial for believers to stand firm in their faith and understand what exactly is coming for the world.
