The president-elect added that the federal department could become the modern-day “Manhattan Project” in terms of its scope, influence and legacy.

“Republican politicians have dreamed about the objectives of ‘DOGE’ for a very long time. To drive this kind of drastic change, the Department of Government Efficiency will provide advice and guidance from outside of government, and will partner with the White House and Office of Management & Budget to drive large scale structural reform, and create an entrepreneurial approach to Government never seen before,” Trump wrote.

“I look forward to Elon and Vivek making changes to the Federal Bureaucracy with an eye on efficiency and, at the same time, making life better for all Americans. Importantly, we will drive out the massive waste and fraud which exists throughout our annual \$6.5 Trillion Dollars of Government Spending.

“They will work together to liberate our Economy, and make the U.S. Government accountable to ‘WE THE PEOPLE.’ Their work will conclude no later than July 4, 2026—A smaller Government, with more efficiency and less bureaucracy, will be the perfect gift to America on the 250th Anniversary of The Declaration of

Independence. I am confident they will succeed!"
