

One Nation Under God Versus One World Under Government

I grew up at a time when honest history, civics and science were taught in public schools.

I loved learning about the brave men and women who were willing to risk their lives to break free from the governmental and religious tyranny of Great Britain. I loved learning about the struggles that were magnificently overcome in the official formation of our government and how America's republic style government gave the people of this nation the most hope compared to people of all other nations.

I loved the tremendous thought and brilliant debate that ultimately produced our Declaration of Independence and the Bill of Rights, completely recognizing all men are created equal and are endowed by our Creator certain inalienable rights upheld in our American government.

While I was learning the truth about the founding of this great nation, I was completely unaware of opposing powers that had been operating for decades upon decades, intended to destroy our republic founded on Judeo-Christian values, as the main forces preventing the formation of a one-world government. The Rockefellers and the Rothschilds were well-respected families of great wealth and influence believed, by the vast majority, to be the backbone of moving our sovereign nation forward as a formidable world power.

The great and compassionate people of America have repeatedly proven to offer more humanitarian help to the nations of the world than any other country.

Many of us grew up exceedingly proud to be American—based on what we knew. What we didn't know about was the greed and power-hungry corruption from within—a counter effort working

with foreign powers to overturn America under the cloak of the United Nations.

We've been given a wake-up call and a call to action in this very hour where, with God, those who engage can regain control and celebrate victory. Are you in?
