

Recent Actions Endanger Israel and US, 157 Christian Leaders Warn Biden

By American Christian Leaders for Israel

One hundred fifty-seven Christian leaders, including Gary Bauer, Troy Miller, Juan Rivera and Star Parker, united under the banner of American Christian Leaders for Israel to write a letter expressing disappointment with recent actions taken by the Biden administration regarding Israel and warning him that these actions will embolden both nations' mutual enemies and encourage a course correction. The signatories represent many diverse streams of Christianity and over 60 million Christians across the nation.

The letter from ACLI noted a long series of actions taken by the Biden administration over a short period of time that caused alarm, including:

- **Holding Israel responsible for civilian casualties and drawing moral equivalency between Hamas and Israel, pointing out that Israel warned civilians of the impending attack and advised them where to go for safety.** Hamas ordered them not to go, making them human shields.

- **Accusing Israel of intentionally blocking humanitarian aid to Palestinians in Gaza while ignoring the fact that for years, Hamas had redirected international aid to build rockets and military infrastructure and now commanders aid for its own survival at the expense of the people.**

- **Abandoning Israel in the U.N. Security Council, demanding a**

cease-fire and initially condemning the planned incursion to Rafah. The administration has said it agrees with Israel's goal of eliminating Hamas, but this cannot be done without destroying its remaining infrastructure in southern Gaza.

– Attempting to force negotiations for a Palestinian state, essentially rewarding Hamas for its barbaric Oct. 7 attack on Israeli civilians and sending a message to terrorist networks worldwide that such savagery would bring results, endangering the U.S. and the entire Western world.

– Waiving sanctions on Iran, thus providing billions to the regime that funds and equips Hamas and its other terrorist proxies.
