

Holy Spirit Igniting Courage and Unity Across America

In the wake of freedoms being restricted, division sweeping the nation and satanic practices becoming an everyday occurrence across all media outlets, Christians have no shortage of areas to engage in spiritual warfare.

Thankfully, when prayers are lifted up to heaven, the Holy Spirit answers and inspires believers into action on the behalf of God.

It will take a move of the Holy Spirit to overcome the spirit of division that has taken hold of the United States, and inspire her citizens to live up to the name given to the 13 colonies who united against tyranny and religious oppression.

After the recent pandemic, Americans are waking up to the narrative of hate, fear and chaos that were forced on the world, while being manipulated by globalist elites who look to undue the sovereignty of nations across the globe.

But Christians are waking up to the ploys of the devil.

No longer are people trusting a narrative, but they are comparing it to the Word of God and determining if truth or lies are being told.

The deception that has been revealed by such extraordinary events like the release of the Twitter Files, have shown that governments, Big Tech, Big Media and corporations are lying and manipulating people to accomplish their nefarious goals of consolidating power.

Yet God is bigger than any government. God is bigger than the World Economic Forum. God is bigger than Facebook, CNN and YouTube, and He will not allow His Word to be censored.

This is why Clay Clarke gathered together Americans of faith like Floyd Brown, founder of Western Journal, to shine the light of Jesus on the darkness that is trying to overtake the world.

You can read more about the effort in America to fight back against the principalities, powers and rulers of darkness in Brown's new book, "Counterpunch."

United believers can bring America back from the precipice that Sodom and Gomorrah walked over, and become a shining beacon of God's light, grace, love and mercy once again. {eo}

 To read more about the fight over the soul of America, view Floyd Brown's new book "Counterpunch" available now.
