

WATCH: Did We Miss the Book of Revelation's Fifth Trumpet?

Are we really that oblivious?

“Let me give one astounding illustration,” says author and Pastor Carl Gallups. “ ... Everything I’m going to say is documented profusely with credible (documentation). I’m talking about language study departments of major universities; I’m talking about U.N., United Nations documents, transcripts; I’m talking about scientific sites; geographic sites; military sites; historical sites. I’m not talking about conspiracy-theory websites.”

Gallups believes the seventh trumpet is the rapture of the church, which means six need to sound before it.

And the sixth trumpet is looking pretty close to reality ... so did we miss the fifth?

Watch the video to see what Gallups has to say.
