

# WEF Chairman Calls For 'Deep Systemic and Structural Restructuring of Our World'

*Read time: 3 minutes 20 seconds*

The globalists are making moves, and far too few people are paying attention.

In the Bible, Jesus says He is sending His followers out into a world that hates them. He implores believers to be "wise as serpents" and to "Beware of false prophets who come to you in sheep's clothing, but inwardly they are ravenous wolves."

This is how many across the world view the unelected World Economic Forum (WEF), who claim on their website that, "The Forum engages the foremost political, business, cultural and other leaders of society to shape global, regional and industry agendas." But what exactly is that agenda, and why would a group of unelected individuals think they have a right to dictate to the world how to move forward?

To affect global agendas on this scale, the founder of the WEF, Klaus Schwab, rubs elbows with the world's elite ruling class at summits like the B20 that is being hosted in Bali, which is a part of the greater G20 summits.

With 19 countries and the European Union in attendance, the global elite listened as Mr. Schwab called for a "deep systemic and structural restructuring of our world."

"If we look at all the challenges, we can speak about the multi crises, economic, political, social, ecological, and institutional crises," Schwab told the world leaders at the B20 summit. "But actually, what we have to confront is a deep systemic and structural restructuring of our world. And this

will take some time and the world will look differently after we have gone through this transition process.”

“Politically, the driving forces for this political transformation, of course, is the transition into a multi (mumbled) world, which has a tendency to make our world much more fragmented. For this reason, events like this one, the G20 and so on, are the very important connectors to unwind a too great segmentation ...” he continued.

The Daily Wire’s Editor Emeritus Ben Shapiro sees these statements more as a way to garner control over the world’s population, not to make it freer:

“We can, says Schwab, cure ‘inequality and the unfairness that underpins it,” Shapiro wrote. “He doesn’t mean that we ought to press forward free markets and property rights more broadly—the greatest alleviators of poverty in human history,” Shapiro continued. “Instead, he means we ought to reorganize the global economy in centralized fashion. Every country ought to pursue ‘a broader, if not universal provision of social assistance,’ plus ‘a move toward enhanced protection for workers in the form of mandatory benefits.’ This inevitably means that governments will ‘decide that it’s in the best interest of society to rewrite some of the rules of the game and permanently increase their roles.’”

Christians, Jews and everyone else in the world must be alert regarding the push for a one-world government. When oppressive governments have come into power, like the Soviet Union and communist China, religion is always suppressed, made illegal and its followers are then persecuted.

With the goal for all Christians being to spread the gospel of Jesus Christ in the Great Commission, they must be prepared to do so under hostile conditions. Doing this requires a strong foundation, built on the Word of God, a genuine relationship with the Lord and filled with the power of the Holy Spirit.

As several of the largest banking corporation in America begin a 12-day trial period using digital currency with the Federal Reserve Bank of New York, there are many Christians across the world that believe they are living in the End Times.

With rumors of one-world governments, digital currencies, having global lockdowns and mandatory vaccines, people of all backgrounds are on edge.

Thankfully, the Bible says how things are going to play out, and believers around the globe can find peace in the fact that Jesus is the victor. {eoa}
