

What Happened When Christians Tried to “Patrol” a Muslim Hotspot

A Christian organization says they were “patrolling” a Muslim hotspot when they were “mobbed” from “every angle.”

In a new video, the organization known as Britain First shows men and women carrying crosses through Bury Park, Luton.

However, the video appears heavily edited. At one point, the leader says they were mobbed, but it’s unclear how the mobbing came about.

“We were walking through ... we just literally got mobbed. Muslims came back from every angle,” she said. “They were threatening violence. People tried to attack me ... people tried to attack our activists. They’re throwing things.”

So what’s really going on? Watch the video and decide for yourself.
