

End Times ALERT! Amanda Grace Warns of 'The Revelational War' Unfolding!

There's no doubt about it: We are in the middle of an end times battle.

In an exclusive interview with Charisma Media, prophetic voice [Amanda Grace](#) shared key insights from [her new book, The Revelational War](#), and how we can test true versus false prophets.

[Breaking News. Spirit-Filled Stories. Subscribe to Charisma on YouTube now!](#)

One of the founding principles of Grace's book is that Satan has been in a battle against God's people from the very beginning of time, and we are still in this war. Just as Satan tempted Adam and Eve to eat the forbidden fruit, he is still trying to tempt us into sin and away from [the presence of a holy God](#).

"The enemy put forth an opposing revelation that included a temptation," Grace says.

This battle has raged through history, culminating in God's redemptive plan through Jesus Christ. Just as Genesis marks the beginning, Revelation declares the ultimate victory where the enemy is cast into the lake of fire. One of the ways Christians can be victorious right now in the middle of the struggle is by discerning true from false prophets.

“First of all, false prophets will lead people away from the Lord,” Grace says. “They will lead people into idolatry one way or another. A true prophet that holds the office knows their place, and it is far beneath almighty God.”

Grace firmly believes that a true prophet will not fill people’s hopes by pointing to mankind, but by directing them to the Lord. She also says true prophets will never give prophecies only after receiving payment for them, and their words will have depth.

“False prophecy is many times very superficial, very vague,” she says.

True prophets, [as Grace mentions](#), know the Word of God, love and fear Him, and seek out His righteousness above all else. False prophets, on the other hand, care more about their own desires and success.

The call to spiritual discernment is not just for the prophets, but for all who follow Christ. As Amanda Grace emphasizes, true prophecy will always glorify God, never man, and never will be tainted by greed or manipulation. The body of Christ must rise in wisdom, testing every spirit and aligning every word with the unchanging truth of Scripture.

As we navigate these turbulent times, it is more crucial than ever to stand firm in [God’s truth](#) and sharpen our discernment. The enemy’s tactics have not changed—he continues to introduce deception and twist God’s Word to lead people astray. But just as the battle began in Genesis, Revelation assures us of the ultimate victory in Christ.

On the Road to Gog and Magog? Increasing Turkish Military Presence in Syria Concerns Israel

Turkish President Recep Tayyip Erdoğan invited Hay'at Tahrir al-Sham leader and Syrian interim president Ahmad al-Sharaa to Ankara for discussions [regarding the establishment of Turkish bases in Syria](#), according to the Jerusalem Post.

Several sources familiar with the discussions told Reuters that Erdoğan and al-Sharaa discussed the possibility of establishing two Turkish bases in Syria's central desert region, including a former Russian airbase (T4) east of the city of Homs.

The agreement could also include the use of Syrian airspace for military purposes and Turkish participation in the training of the forces of the new Syrian army.

The report also said that the agreement could include Turkish protection of Syrian airspace to prevent future attacks, such as the Israeli strikes aimed at destroying military supplies left by the former government of Bashar al-Assad.

According to a report in "Middle East Eye", Turkey has already begun formulating construction plans for the base, which is

located near the city of Palmyra in central Syria. That report claims that Turkey would initially establish air defense systems on the base, before stationing long-range UAVs, such as the Turkish Bayraktar TB2, which has seen extensive use by Turkish forces and Turkish militias against Kurdish fighters in Syria, Iraq, and eastern Turkey, as well as in Libya.

An Israeli security source said that any Turkish air base in Syria would harm Israel's freedom of action. "This is a potential threat that we oppose," the source said.

While the Turkish air force is not as advanced as the Israeli Air Force, which boasts newer versions of the F-16 and F-15 fighter planes also used by Turkey, as well as the F-35 stealth fighter, the Muslim country is working to develop its own fifth-generation stealth fighter jet, the "TF Kaan."
