

Amanda Grace Warns Iran Crisis Is Prophetic Flashpoint of What Will Happen Next

In a powerful and prophetic video, Amanda Grace shared how the current crisis with Iran is a prophetic moment that fits into a current 911 window.

Speaking about the ceasefire between the United States and Iran, Grace pointed out that the timing of this current escalation speaks to a prophetic pattern.

“First of all, President Trump is the 47th president. So, the 47th president on 4/7, April 7, that was the deadline for Iran to come to [an] agreement, or their power plants were going to be attacked,” Grace said.

She also noted that these events were taking place in the middle of Passover, a time which has always been important for the deliverance of God’s people.

“The Ayatollah’s regime reigned 47 years,” she continued. “Trump gave the Iranian regime this ultimatum on 4/5, April 5th. So, you have 4/5 and then 4/7. Those dates equal 9/11. Four plus five equals nine, four plus seven is is a literal Passover 911.”

Grace then points audiences back to the book of Exodus to see the rest of this incredible, biblical pattern.

“In the book of Exodus, the Passover showdown happens over a

body of water. It happens at the Red Sea, where Pharaoh's army was ultimately decimated. From 4/5 to 4/7, we witnessed a showdown occur between the United States and Iran over a body of water, the Strait of Hormuz, all during Passover," Grace said.
