

Are Aliens Real?

Are aliens real? Is there life on other planets? Are UFOs real? If so, where are they from?

It is very interesting to see that in recent months the media has begun reporting again on UFO sightings. There seems to be a newfound interest in the subject. There also exists a great deal of misinformation around this topic, and yet many reliable witnesses have been documented. Multiple people have reported seeing UFOs and these unidentified objects have also been viewed on radar. In fact, over the years, there have been thousands of sightings all over the world.

According to a new survey, half of Americans believe in aliens, and almost as many believe aliens are visiting the earth. It's also interesting to note that the Pentagon's UFO report will be released this year. Some experts have speculated the report will probably conclude the sightings are not American technology.

So, what does the Bible say on this subject? If we hold to a biblical worldview, we don't prescribe to the existence of alien life. With all the new and old ideas promoted around the world today, keep in mind that everything a Christian believes must be validated by the Bible. The Bible is our foundation for truth and will always provide the standard for filtering any and all information.

Two of the most respected researchers on this topic are Jacque Valee and J. Allen Hynek.

Both men came to the conclusion that these things are "demonic." This is the term they both used and neither of them were religious people. Could it be that Satan has come up with something this deceptive? Will this ongoing occurrence be part of a bigger plan against humanity? The stage has been set for decades. Remember what Jesus said when He spoke about the last

days, "Take heed that no man deceive you" (Matt. 24:4).
