

Are You Ready for the Coming Tidal Wave of Revival?

We are on the precipice of revival! The revival will be bigger than the Great Awakening, the Azusa Street Revival and the Brownsville Revival.

I spoke with my friend, Cheryl Salem, Miss America 1980 and minister of the gospel, regarding a detailed vision from God of the coming tidal wave of revival in America. As a former Miss America, Cheryl is called to stand in the gap as an intercessor for the United States of America. God gave her a vision three years ago of the coming revival, a revival like we have never seen.

In the vision, Cheryl Salem saw a tidal wave rise from the East Coast, out of the Atlantic Ocean and, almost simultaneously, a tidal wave swell from the West Coast, emanating from the Pacific Ocean. It was the size of the United States. The bicoastal tidal waves met in the Midwest of our nation.

When God first gave her the vision, the Lord said, "It is coming!" But when the pandemic hit our nation in March, the Lord proclaimed to Cheryl, "It is here!"

Perhaps the most important part of Cheryl Salem's vision were the three reactions of the millions and millions of people affected. The first group, the wave riders, was completely ready, excited and expectant of revival. The second group, the perplexed, was confused, disturbed and caught unaware. But the third group, the overcome, was devastated by the tidal wave of revival.

To find out which group you would be in, listen this week's *Fire Starter* podcast. {eoa}
