

Chuck Pierce: The Prophetic Importance of the Next 2 Years

What prophetic message is God trying to get across to His people for the coming years?

In an interview on the Strang Report podcast with Charisma Media CEO and founder, Stephen Strang, prophetic voice Chuck Pierce warned Christians about what's heading our way for the remainder of 2024 and how this year will impact what we see coming by 2026.

"I think we could focus on Trump or we could focus on the party right now of the Democrats and how they've changed so much. But what I have tried to remain focused on especially this whole decade is the voice I'm hearing," Pierce says. "See, this decade is about what you hear and how you hear it."
