

Kathryn Krick: We are in a Season of Transformation

In a riveting message at Five-Fold Church, apostle Kathryn Krick spoke about how this season is a time where God is seeking to transform His bride in order to see revival grow. However, there have been many in the body of Christ who have been resistant to seeing this change take place.

“This is prophetically the year of 2025 that God’s revival is going to be accepted in a greater scale than ever before,” Krick says. “It’s the appointed time where Jesus wants his bride to be transformed. it’s been transformed just a teensy bit.”
