

Lance Wallnau: Trump Delivered a Powerful Prophetic Warning to Christian Leaders

Lance Wallnau says a leaked memo contains a powerful prophetic warning President Donald Trump shared Monday night when he attended a “state-like” dinner with evangelicals.

Charisma News reported the memo shortly after it leaked.

“I can’t believe this document isn’t going as viral as the latest ... post or something,” Wallnau says.

Wallnau says some “weasel” recorded Trump’s private warning for Christian leaders about what’s to come.
