

# Marilyn Hickey on Miraculous Living, Total Health and Supernatural Prayer

Have you ever struggled with faith in your life? Have you asked God to do the impossible in issues with faith, finances or relationships? Chuck Parry, author of *Alignment: Live a Life of Miracles*, encourages Christians to “play” with God and to take His promises out for a test drive. Taking God at His Word and not waiting to feel or sense His presence is an honor and is a form of worship. As co-heirs with Christ, we’re part of a kingdom that has a different economy than the earthly one. Give thanks for the little things—celebrate them—and you have communion with the heart of God.

Do you ever feel that your life is falling apart? Unraveling? God wants to help you today. Do you know that you can become free from physical weight and spiritual weight? Some of the weights people struggle with—depression, pressure, relationships, unforgiveness, fear, anxiety, strife and confusion—will affect their bodies. Weights in our spirit and soul come from our focus. Speak the Word to your body, mind and emotions to avoid being weighed down. Keep your focus on God, and don’t listen to the devil. God has special plans for us to walk in health: body, soul and spirit—that’s His will.

Do you believe prayer changes things? Prophetic and prayer minister Hakeem Collins does. He wrote *10 Prayer Secrets: Supernatural Power for Your Breakthrough* because he wanted to experience breakthrough in his life as well as give others an understanding of how to achieve breakthrough in their lives. His book brings principles from Scripture, sharing real encounters by biblical characters and showing how they received breakthrough. Learn how to position yourself every day to partner in prayer with God and activate mountain-moving

faith to produce supernatural outcomes. Most importantly, do not stop praying; use faith to conquer fear; and understand that forgiveness is a powerful secret in breakthrough. {eoa}
