

Morning Rundown: Resurfaced Prophecies Continue Stark Warning to King Charles

Here's a quick rundown of the top stories on :

Resurfaced Prophecies Continue Stark Warning to King Charles

The prophecies over King Charles' reign have continued.

In a stark warning from September of 2022, Charlie Shamp has re-shared his prophetic word about the enemy that would come in like a roaring lion in the United Kingdom. However, he believes revival would spring forth even in the midst of this turmoil. Everything that had been done in darkness, God has taken into account for how He will implement the next phase of leadership over Great Britain.

"Charles, Charles, what have you done?" Shamp prophesied. "Have you not sold your birthright? Have you not traded it in? But even while you were selling it, even while you were selling your sonship with your brother, for did you not see what I saw with Phillip?"

Is Satanic Abuse Troubling Your Marriage?

We all know about child abuse, spousal abuse, animal abuse, senior abuse, medical abuse, drug abuse, environmental abuse, religious abuse, terrorist abuse, government abuse, prison abuse, ritual abuse and I'm sure you can think of many other forms of abuse.

The phrase *Satan-abuse* entered my mind during my prayer time this morning. “Wow,” I thought, “the most pervasive kind of abuse is subtly and cleverly invading every facet of life.”

The statistics reveal that crisis is affecting and touching us from every corner of the universe. Abuse of every kind is prevalent and widespread. Every home on this earth is being invaded with the attacks, wiles, strategies, plans and tactics of Satan and his evil workers of iniquity.

Jentezen Franklin: Fasting, Faith and Patience

I don't really remember what grade I was in, but we did an experiment in elementary school that left a lasting impression on me, even into adulthood.

The teacher told us to save our milk cartons from lunch for this special event. We were to bring them back to class with us, where we rinsed them out and cut the funny tops off. She then opened a big container of black potting soil, and we scooped some into our cartons. She handed each one of us a big butter bean seed and told us how to plant the seed in the soil by making a small hole with our finger and dropping the seed in. After I pressed the dirt back down into the hole, I watered the seed, taped my name to the box and set it in the sunny window beside everyone else's.

Every day when that class started, I ran to the window with the others to see what was happening with the seeds. We couldn't see anything until the third day, when a tiny bit of green sprout began to show in some of the boxes. By Day 6, most of the boxes had green sprouts, and some even had leaves showing—but not mine. For six days I eagerly ran to the window to look at my box; there was nothing but dirt. I watered it like everyone else did. It sat in the same sun that everyone

else's did, but no sprout was showing. I wondered if my seed was even still there.
