

Prophetic Implications Abound From George Soros' Latest Move

Revelation prophecies of the world bank may be manifesting in front of our eyes, Derek Gilbert tells Jim Bakker.

As England attempts to leave the European Union and Bitcoin and other cryptocurrencies make headlines, Gilbert believes that there's a globalist agenda attempting to gain control.

"On the short term, it's a political ploy by those who see this as a new constituency," Gilbert says in a recent episode of *The Jim Bakker Show*. "I think looking at it as Christians, we have to look at the prophetic view and see that this is bigger than the United States. All over the world, there's a drive by the likes of George Soros and his open society initiative and other globalists who want to break down national borders."
