

Prophetic Word: The Greatest Move of God Is Coming

The greatest moves of God in history will occur in the times surrounding *completion*, in the fullness of times. We will see what began at Pentecost—occurring in its fullness in the times surrounding the Feast of Tabernacles—beginning in waves of glory and the presence of God and gaining in momentum to its fullness at Jesus' return.

The Feast of Pentecost was fulfilled and completed with the coming of the Holy Spirit; however, the river that began to flow at Pentecost went underground for long periods of history with the increasing darkness, especially through the Dark Ages.

There have been periodic short bursts of eruptions as revivals or awakenings. When the alignment of the conditions of the heart were met, this river broke through during certain times of history. Saints were interceding and the timings of God were ripe—together creating a synergy that caused microbursts of power eruptions in the earth. Despite its hiddenness, the river of God has been flowing over history and gathering power in the energy of the Holy Spirit, brooding and rumbling under the earth, unseen to the natural eye and to the spiritual hosts of wickedness. It will one day erupt once again and explode into the earth in the fullness of power, in the completion of time, for the time of the summing up of all things in Christ.

In the blueprint of the architect's design of His house, the setting in of the cornerstone aligned with the first coming of Jesus and with Pentecost. Pentecost brought with it the opening of the doors to the kingdom, a harvest from Gentile nations. However, tabernacles represent the completing work of God on His house. It is also referred to as the "ingathering

of the harvest.” Its fulfillment signifies the time of the final ingathering of souls into the house of God. This is referred to in Scripture as the harvest that is the end of the age. The river is rereleased in the fullness of power for the work to gather in this harvest, and to empower the saints as they were at Pentecost—those who were in one accord.

The setting in of the headstone or capstone, is aligned with the time of the ‘until’ of Romans 11: when blindness is removed from Israel. Momentum has been building and will continue to build with moves of the Spirit in cities and regions and will begin to coalesce into a power-packed movement generated by the *dunamis* of the Holy Spirit.

When He comes, life will continue on earth; however, it will have a new supernatural dynamic, where the spiritual forces of heaven intermingle openly with earth. The portal over natural Jerusalem will be fully revealed and aligned to the spiritual heavenly Jerusalem, with heavenly beings openly ascending and descending in a divine interaction with earth.

Christ, along with His saints, will rule and reign on the earth, and there will be peace.

Eyes will be opened to see naturally the spiritual things that have not been seen before.

Darkness and evil will be bound, disallowed from functioning in the world; and the goodness and authority of God will prevail over mankind.

It is important to note here that if the builders and leaders of the house of God do not have the Lord’s heart and intentions regarding Israel’s destiny, then the question to ask is, can they be on the same journey with Him—a journey that culminates at the Feast of Tabernacles in Jerusalem?
