1. Decade-Old Prophecy Warns of a Coming 'Strange July' and

'Hypnotic November'

This prophecy from 2014 came to fulfillment a decade after it was first prophesied over by the late Kim Clement. In the prophecy, Clement discusses impending hardship and unusual circumstances in the summer, something we saw happen with the July assassination attempt on Donald Trump. He also prophesied that November would be hypnotic and that the world would see who God's chosen man was to lead America. This too came to pass when Trump was elected for a second term.

Kim Clement's Amazing New Year's Prophecy

Are you ready for what God will do in this new year?

In a video from Dec. 31, 2014, the late Kim Clement gave a prophecy for the coming year that still is ringing true within our world a decade later.

"There is a sound that is coming, that the world has never

heard before. On the day of Pentecost, there was a sound that came, and My church was born,” Clement said. “That sound destroyed the powers that would chain them, that would bind them. That sound would be stolen through the ages. But there was always a remnant who kept the sound safely. And then at the right time it would be released.”

Prophetic Fulfillment? Chris Reed’s Vision, Jimmy Carter’s Death and the End of Biden’s Era

On Jan. 21, 2023, during an appearance on “The Lance Wallnau Show,” Chris Reed of Chris Reed Ministries unveiled a prophetic word that he had not shared publicly until that moment. Now, with the recent passing of former President Jimmy Carter and plans for his state funeral on Jan. 9, 2024, Reed’s vision has sparked renewed interest among believers seeking to understand its implications.

Reed began his revelation by stating, “I’ve shared this with my team. This is the first time I’ve shared this publicly, so this is a new prophecy. I shared this with Rick [Joyner], I shared this with others.” According to Reed, the vision came to him in a supernatural encounter with the Lord in the second week of January 2023.

“I was taken into the Capitol rotunda in Washington, D.C.,” he recounted, emphasizing that this was not a physical experience but a “transvision.” The rotunda, famously a place where prominent political figures lie in state after their deaths, became the setting for a significant scene.
