

Troy Black Prophesied Vegas UFO Encounter 6 Days Before It Happened

Troy Black isn't kidding himself, and he isn't trying to put one over on believers or the prophetic community.

The author and prophet says he knows it sounds crazy, but on April 24, he heard a prophetic word from God, and the power of God came over him and the Holy Spirit began to speak to him. Indeed, the YouTube video proclaiming this prophetic word was posted over a month ago.

Then, it was reported on Fox News Digital and Charisma News that late on April 30 and early-morning on May 1, a family in Las Vegas, Nevada, saw what they believed to be a crash landing by a UFO and a "tall, skinny alien creature with greenish color." The family described it as "no joke" and "terrifying."

Las Vegas police officers who responded to the 911 call interviewed three witnesses that night and found them to be "sober and credible. A renowned journalist also interviewed the family and "didn't detect a hint of a hoax."

Black says he "got this impression from the Lord" that a UFO would crash-land in Nevada—specifically in Nevada—a one-man spaceship, he says, like you would see in a kids' cartoon.

"I saw a vision of "a UFO—or a flying saucer"—crash-landed and sticking up out of the dirt in a desert area "that had small shrubs, small desert bluffs or mountains" in the background," Black says in a recent video. "That was the prophetic message that I shared, and you go watch that video to verify that it was April 24th when I shared it.

"Six days later, this is what happened that came out in the news six days later," he adds. "This article is from 8 News Now in Las Vegas, and it's titled, '100 Percent They're Not Human. Witness details alleged encounter in Las Vegas.'

"This was released on June 8, so this was about a month and a half later, after this incident," Black says. "But they are talking about an event that happened on or near midnight April 30 and reported about May 1. So, it was only six days after I shared that original video."

Again, Black is aware of how all of this sounds to the natural mind.

"I know people are watching this and thinking, 'Well, this sounds nuts,'" he says. "We see a lot of different UFO reports happen in the Las Vegas area, and it's not uncommon, but this is what I believe has happened here. This is prophecy being fulfilled six days later, after I shared that video—very accurate, a UFO crash landing in Nevada.

"Here's what I believe God was not saying in that," Black adds. "I don't believe God is saying, 'OK Christians, you all need to be scared of aliens; you all need to be concerned. Here's something that's concerning Me, and you all need to be concerned.' God is absolutely not saying that. Why? Because we have not been given a spirit of fear but of power and love and a sound mind, the Holy Spirit, as believers.

"So, what is God saying through this?" he asks. "I believe this is what God was saying. He knew what the headlines were going to be. He knew this was going to be a big, breaking news story. He knew what people were going to be saying about it, so therefore, ahead of time, He said, 'Hey, I already know what people are going to say before they ever come out and say it' ... whether this is real aliens, whether it's just a demonic thing, whether it's a conspiracy, whether it's one big grand hoax. To be honest, I don't know, and that's my perspective on

this.

“But I do know what God said ahead of time, and I know that He knew what people were going to be reporting on, and He knew that this was something that was going to come out in the news,” Black explains. “That’s why He gave me that word ahead of time and asked me to share it publicly.”

You can watch the original video from April 24 on Troy Black’s YouTube channel. And on that same video, Black shares with believers seven attributes of a real encounter with God. {eo}
