

A Prophetic Perspective on COVID-19

About two weeks ago, I was on a phone call with prophets from around the world concerning the coronavirus. Cindy Jacobs called us together to prophesy into the issue and to pray.

You have to understand, none of this came as a surprise. Chuck Pierce, who is the covering for Awakening House of Prayer, prophesied about this coming last September.

At the beginning of the Hebraic year 5780 he prophesied we would face “a massive plague-like invasion that would test us until Passover” and that “nations would come into turmoil until that time.”

The Lord showed me the enemy engineered something to bring fear to the nations and disrupt economies around the world, and that this would not be the last such commotion. This is not the first time we’ve seen a deadly virus and it won’t be the last time. As a matter of fact, we will see more of this as time goes on.

Watch my video teaching for a prophetic perspective and encouragement. While we must obey the government, we do not want to respond to news out of fear.
