

August Prophecy: A Prophetic Vision and Word About God's Powerful Pruning

In a vision, I saw the Lord standing over a great bush with pruning shears. The silver shears were glistening as light bounced off the blade. He opened and closed the shears quickly, almost as if to send an audible signal to the bush that He was about to perform an unwanted surgery.

In the vision, the Lord began to prune the bush, carefully clipping here and there and then standing back to examine His work. The bush wound up flat on top, like a carefully sculpted work of art, but He didn't stop there. He looked the base of the bush, the thick woody part that was thrust into the soil. He saw weeds round and about it.

With gardening gloves on, He pulled each weed with precision, pulling up the entire root of the weeds but leaving the base of the bush intact. He then packed fertilizer around the base of the bush, and almost instantly, it started sprouting beautiful blooms from the the top.
