

A Call to Prayer for the Middle East

Like you,

I am greatly distressed about the situation in the Middle East. Below is a word to the Christians in the Middle East and the worldwide church, along with a prayer guide for Egypt and the Middle East.

There are certain things that I have not written to all, but I believe that the Muslim Brotherhood is behind much of this, or at least taking advantage of it. As you may know, Mubarak just announced today that he will not seek re-election. We must continue to pray for stability in Egypt, for a peaceful transition that will not result in leadership by the Muslim Brotherhood and Sharia law.

Pray for Jordan as well, that the people will stand with the king and that this unrest across the Middle East will not result in an Islamic Caliphate being established.

Below are also several articles along with a video link that will bring further insight regarding the seriousness of what's happening in Egypt and the goals of the Muslim Brotherhood.

Please

join us in fasting and prayer during this most critical time.

AN OPEN

LETTER TO THE CHURCH

As you are

aware, this is one of the most critical and serious times for believers across

the Middle East in recent memory. As a prophet, I have been seeking the Lord

for a prophetic word concerning the situation in Egypt, Lebanon, Tunisia,

Yemen, and other parts of the Arabic-speaking world as well as those greatly

influenced by Islamic teaching.

Also, in

looking back at the prophetic word for 2011 issued by the Apostolic Council of

Prophetic Elders, I read the warning we issued that said that Satan would try

and start another third world war. One of his purposes was to stop the new

missionary movements taking place across the face of the earth.

I believe

we are at that tipping point at this moment where the situation in Egypt could

de-stabilize the region to such a degree that just such a scenario would take

place. Of course, new regimes could be put in place that would cause

Iranian-type oppressions of believers.

This is

why I am calling for the Body of Christ around the world, and

particularly the
Arabic-speaking community to participate in a season of prayer
and fasting
beginning as soon as you receive this letter.

Many may
want to even have such a severe fast as an "Esther fast."
Others can
fast as their health allows. If you are able to do an n Esther
fast, I am
suggesting for a three day time period.

Further, I
feel like I am hearing from the Lord that what Satan has meant
for evil, God
will turn for good if the church across the Middle East will
put aside their
doctrinal and denominational differences and come together in
unity to pray.
The walls of division must fall if the Christian community is
going to be
protected.

While
things seem quite dire, if the church will fast and pray
together as one, the
turmoil will die down and God will protect the world from a
terrible war.

On a
redemptive note, I see a generation of young leaders arising
out of the church
who are anointed to preach the gospel and see a great harvest
of souls all
across the Middle East, as well as North Africa, Central Asia,
Malaysia, and
Indonesia.
