

Can We Take One Step Closer to Reversing Roe v. Wade This Week?

The annual March for Life supported by President Trump takes place *this* Friday. The leading cause of death worldwide in 2019 was 42 million from abortion—20 million blacks in America have been terminated by abortion and 62 million U.S. abortions have occurred since 1973, equivalent to the population of 19 states!

God directs us to speak up for those who can't speak for themselves. Please watch this five-minute video from Larry Tomczak, pray and participate in the March for Life this Friday if you live in the Washington, D.C. region. Thank you.
