

Ex New-Age Expert: The Truth About Alien Encounters

Stephen Bancarz, formerly one of today's leading bloggers in the New Age movement, is on a mission to expose the deceptions permeating the community, including what really happens in an "Alien encounter."

Bancarz recently sat down with Gary Bates, the author of *Alien Intrusion*, a best-selling book set to hit the big screen early next year.

"When one takes a deeper look at this phenomenon, it reveals one of the most disturbing yet powerful affirmations of the truth of the Bible and Christianity," according to the movie's trailer.

Bates is the CEO of Creation Ministries.
