

Frontline Doctor Stella Immanuel Reveals Prophetic Insight from Revelation 6 and What's Coming Next

Read Time: 2 minutes 54 seconds

Dr. Stella Immanuel of Houston, Texas gained notoriety during the COVID pandemic as one of the frontline doctors who said hydroxychloroquine, and later Ivermectin could help patients recover from the virus. At the time, many said they were wrong and they were cancelled by the mainstream media. However, now it seems clear they were right.

Dr. Immanuel is speaking out about the prophetic aspect of what is happening and how it ties in to Revelation. It's not a happy message, but something you should listen to in my Strang Report podcast. The purpose of our discussion is to help you be prepared.

In 2020, When I heard she was a Pentecostal Christian and a Charisma reader, I invited her on my podcast and we have become friends.

In our interview she talks about her new book "Let America Live" and the broader picture of the battle many are fighting across the nation and world. "We are actually just fighting Satan," she says. Between school board meetings, the medical community standing up and politicians fighting for truth, there is a war going on in our nation.

Since the beginning of the pandemic when COVID was first announced, I have been digging into what is going on behind the veil. I wrote a mini book on COVID in April of 2020 called

“God, Trump and COVID-19.” I spoke with sources I had from China and their insight is being proved to be true today.

To gain further insight into what’s next, I sat down for another “Strang Report” interview with Dr. Stella Immanuel. We talk about what has happened, what is still to come and how it ties into Revelation 6. “I do not want to feel vindicated, because being vindicated means I’m right and people died,” Immanuel says in the interview.

Since the viral speech, she has been fighting to protect the American people and shed light on the truth behind the vaccine.

“I said in 2020 the COVID pandemic was a Trojan horse for the vaccine,” Immanuel says. The fear mongering continues with health officials warning of the “tripledemic” which includes COVID, RSV and the flu. The second two have been around for years already.

Immanuel believes we are in the midst of Revelation 6. The fourth seal in Revelation is widespread death on the Earth. She believes that death is tied to the COVID vaccine. “The death rate increased 1,000% almost since 2021. The commonest cause of death in Europe and Canada is died suddenly and nobody is saying anything,” she says.

Revelation 6:8 says, “So I looked, and there was a pale horse, and the name of him who sat on it was Death, and Hades followed him. Power over a fourth of the earth was given to them, to kill with sword, with hunger, with death, and by the beasts of the earth.”

“Last year there was no harvest because there was no fertilizer coming out of Ukraine,” Immanuel says. Now she is warning Christians to get prepared because she believes a famine is coming.

In the interview we talk about getting enough supplies to last

a full year at home. Now is the time to get emotionally, scriptural and physically prepared. Here are immediate steps you can take:

1. Get Hydroxychloroquine and Ivermectin in your medicine closet. You can go to Immanuel's website for a telehealth appointment: to get both.

3. Order Vitamin C and Zinc to boost your immune system.

4. Get a year supply of your essential medication that you need on a daily basis.

5. Stock up on enough food and water for a year.

"There has to be hope, Steve. I know things are going to get bad but if you are in Christ, you don't have to be afraid," she says.

Tune in to our full interview to hear what you need to do if you got the COVID vaccine and steps you can take to negate the harmful effects. Immanuel will give you a prayer to pray and immediate steps you can take.
