

Responding to the Patriarchal Spirit

✖ Any woman who has served in Christian ministry has observed it. The patriarchal spirit seeks to prohibit the release of women into leadership roles.

Today there are scores of men who are championing the cause of women in the church. Yet the theological and cultural debates go on.

Christ elevated the status of women. He will continue to do so as long as our hearts are pure and our focus is on Him!

Heart Issue

How would Christ have us respond to those in the body of Christ who oppose us?

Prayer Focus

Father, we trust You to open every door and silence those who would stand in opposition to Your calling for us. We vow

to wait

for Your timing and Your direction. Keep our hearts tender so
that our

responses will be full of grace. Let our lives testify of Your
blessing

through the good fruit that we bear. Amen.
