

God Performs Notable Miracles During Radical Healing Services

For those who don't believe that God still does miracles today, check this out. In a recent service at House of Glory Church in Mission Viejo, California, through the power of the Holy Spirit, two people, Charlene and Jose, announced they had been radically healed of herniated discs by the power of the Holy Spirit.

Jose had suffered from severe pain in his back for more than a year due to three herniated discs. When Apostle Cathy Coppola laid hands on his back, Jose proclaimed he had become pain free. He was able to bend his back without any pain whatsoever.

"Every day I cried and prayed because it hurt so bad," Jose says. "I feel the Holy Spirit on me right now."

Charlene says she was in pain for several years and was permanently disabled from four herniated discs. She says she is no longer permanently disabled.

"We give God all the glory and praise [for their healing]," Coppola said.
