

Is Charlie Kirk's Death Sparking a New Jesus Revolution?

It's been a month since the shocking assassination of Charlie Kirk, and America is still trying to make sense of it. To millions, Kirk was a fearless conservative leader who stood boldly for faith, freedom and truth. But those who knew him best say his mission went far deeper than politics—he was a devoted follower of Jesus Christ whose life, and now death, are stirring something profound across this nation.

Evangelist Mario Murillo, my guest on The Strang Report podcast, put it plainly: “Charlie Kirk was killed because he was effective.” Murillo believes Kirk's assassination is more than a national tragedy—it's a spiritual wake-up call. “If he's a martyr,” Murillo says, “then he was killed not for his politics, but for his Christian faith. He stood for biblical truth, and that's what made him dangerous to the darkness.”
