

Is Climate Change a Horror or a Hoax?

The United Nations, Barack Obama, the Pope, Leonardo DiCaprio, Alexandria Ocasio-Cortez... They can't all be wrong in saying climate change is the world's most pressing problem, can they?

How do we explain Global Warming crusader Al Gore's 10 predictions from his award winning documentary all falling flat?

Are temperature variations cyclical in history? What about Paul Ehrlich's prognostications from the '60s that made him rich and famous but never materialized?

Take 10 minutes to watch with your family and friends this video by cultural commentator Larry Tomczak so you are educated, equipped and able to engage with others on this hot button issue today.
