

Joanna Gaines Bakes Cookies, Plays Games With Kids During Quarantine

Joanna Gaines uploaded a new video to her YouTube channel “Magnolia” with a step-by-step tutorial on how to make her chocolate chip cookies (a recipe from her cookbook). She also gave a tour of her kids’ activities while they’re quarantining at home during the COVID-19 outbreak.

“We had puzzles, we had Legos; these kids are getting creative,” Gaines says. “One of our favorite games we’ve been playing is this game Spot-It. Drake is making videos [with special effects]. Ella decided to look through the Waco phone book.”

Gaines is inviting her viewers to host their own baking show and share it online by tagging @magnolia and #webelieveinhome.
