

Jonathan Cahn Reveals the Thanksgiving Miracle: How to Unlock God's Abundance

Thanksgiving reminds us of the cross and the life-changing power of Christ's blood. We have endless reasons to be grateful for what Jesus accomplished on the cross. In a powerful message, Rabbi Jonathan Cahn reveals how genuine gratitude reflects a genuinely thankful heart—and how that thankfulness can shape your future in ways you may never have imagined.

As Cahn points out, if two people each claim to have received a wonderful gift, but only one shows gratitude, it's easy to see who is telling the truth. "The one who's thankful," Cahn says, "is the one who's telling the truth. In the gospel, it is written that He took the bread at the Last Supper and gave thanks... it was the blessing. It's never the bread." Thanksgiving is the accurate measure of whether someone has received the gift of salvation.

Jesus' act at the Last Supper points to a principle that extends to every area of life. The organized church called the bread the Eucharist, but as Cahn explains, "The word for Eucharist is in the Bible... It's not about the bread. It's not the bread at all... It's the blessing over the bread." Gratitude, not possession, is the key to abundance. "It's never the things that are going to make your life. It's the blessing over the things... It's not how much you have. It's how much blessing you give for what you have."

Cahn points out that this principle was also evident in Jesus' miracle of feeding the multitudes. With only two fish and five loaves, He "didn't complain about the food... He says he lifted it up and He gave thanks to God. And when He gave thanks to God, it multiplied." Cahn emphasizes, "Take the little you have. And instead of complaining about the little, give thanks for the little and the little will multiply." This multiplication begins in the heart: frustration lifts, joy grows and the believer begins to see how truly blessed they are.

The practice of thanksgiving is transformative. Cahn shares, "Just sit down, just start writing down blessings in your life and start giving thanks to God. Watch the joy grow and multiply in your life." He points out that it doesn't matter how big or small your home, account, or resources are—when gratitude flows, blessings flow. "When you take nothing for granted, everything becomes a blessing... You take your spouse for granted; they can't bless you anymore. You take your salvation for granted; you won't be blessed. But when you start giving thanks, take nothing for granted, give thanks for everything you've got every day, it's going to bless you."
