

Love Will Have the Final Word

Jason Gray (Centricity)

The title of Jason Gray's newest Centricity Music release, *Love Will Have the Final Word*, speaks of decisiveness and closure. It's a statement of confidence and determination. And it's true—we live in the assurance that through all our ups and downs, the ultimate victory has already been decided for us. Love wins every time.

This soul-stirring collection of music speaks directly and powerfully to very real and complex circumstances. The album illuminates humanity's lowest and highest points and shows empathy as well as advice for successfully making it through even the toughest situations.

Jason Gray has emerged as a songwriter of extraordinary depth, with a noteworthy ability to convey deep theological truths. The Minnesota native, whose 2011 release, *A Way to See in the Dark*, was named the best album of the year by critics and garnered three top-five radio singles, steadily draws listeners on an emotional level, offering not escape or distraction but healing and hope.
