

Mario Murillo Ministries Makes All-Out Assault on Satan and Our Woke Culture

This is supposed to be the worst of times for mass soul winning in America. Experts armed with statistics paint a dire picture.

They label the gospel hate speech, and they say, “No one wants to hear the gospel!” They also point to widespread abuse of signs and wonders, and say that miracles have fallen into disrepute. Yet these are the two things we emphasize.

The threats levelled at us and other outreach ministries are at an all-time high. Woke outlets—in no uncertain terms—tell us to shut up and stay out of their cities.

The picture Christian experts paint is just as gloomy as what is coming from the secular media. These “experts” recommend that the church should just hunker down and ride out the storm. They warn against straight and clear gospel preaching. Woke churches take it a step further and publicly oppose soul winning.

How then can you explain what God is doing in our midst? God is doing everything they say *cannot* be done. The Holy Spirit—like a sniper—is picking off every lie of the experts and exposing the false limitations that hinder the modern church.

The general public—the real people—want to hear the Word of God. They come early and in large numbers to hear it. Miracles flow in divine order and solely for the glory of God. Praise the Lord.

Because of those false limitations, some local churches are

reluctant to join our efforts. But that does not stop the crowds from coming. And the churches who do join us are discovering what happens *after* a tent crusade is over.

The fire remains. The fruit remains. The fervor to win souls continues, and two additional sacred cows of Woke have been slain:

- They claim Christians are too lukewarm to volunteer. But as of today, 1,000 volunteers are making their way to Colorado Springs—at their own expense.
- They claim that young people are not interested. But Radiant church just reserved 250 seats for teenagers.

The great joy in life is serving God and doing what others say is impossible. We are glorifying God for this amazing moment.

Speaking of false limits: in the last 45 days we invested half a million dollars in soul winning equipment. No one does that unless they expect to win a massive harvest for years to come. We believe in the future of soul winning in America and so do our partners.

Not only did we get a 40,000 square foot tent that is 40 feet high—we also bought an arena sound system that can easily handle a crowd of 7,000. We purchased a video trailer and truck, tower lights; thousands of square feet of AstroTurf; 2,000 additional chairs; generators; three LED walls; and a 40-foot stage.

Some see gloom and doom. We believe in the Great Commission. We believe in the future of soul winning in America and so do our partners.

✘ But it is not without intense warfare. You cannot encroach on the devil's territory without retaliation. We are truly experiencing what Paul said in 1 Corinthians 16:9:

“For a great and effective door has opened to me, and there

are many adversaries.”

I have never needed your prayers more than right now. But above all, we must thank and glorify God for the amazing work He is doing among us. We did not earn this. We do not deserve it. But we fall before God in total gratitude and adoration.

Hallelujah!

Mario Murillo rose from poverty in the Mission District of San Francisco. After being revolutionized by Christ, he felt a call to evangelize at the University of California at Berkeley. The students rejected his efforts until a desperate prayer led to an unprecedented supernatural outpouring. Students started to report miraculous healings. After a four-day conference in San Jose, California, extended to six months, with nearly 250,000 people in attendance, he launched his international ministry. Since then Murillo's voice has been heard by millions around the world, bringing a message that zeroes in on the hurts of society and Christ's power to end addiction, racism, violence and disease.
