

Mario Murillo Says Satan Must Destroy America for This End-Times Reason

Evangelist Mario Murillo has studied the book of Revelation thoroughly, and he knows that the judgment hand of God will fall on America sometime in the coming days.

But Murillo also knows there is a reason it hasn't happened yet, considering the chaos, the evil and the anti-God attitude that has enveloped the United States in recent years.

"We are a firewall against global tyranny," he says. Our military is a firewall against tyranny. The United States represents the only reason that Red China does not exercise its full authority to destroy the nations. It's the only reason it doesn't move down and squash Australia.

"We have to understand why Satan wants America out of the way is because he wants to implement his one-world system," Murillo says. "The Lord said to Jeremiah, 'Go and tell the people that they have sinned and that Babylon will take them into bondage.' At the end of it he said, 'Perhaps they will listen, and I will be able to delay judgment on them.'"

"I look at the book of Revelation and I know that things are coming," he says. "But I also know that revival will stay the hand of God's judgment, and that's why we need in this hour to pray for America and to stand up for America like never before."
